Real Estate for Business & Investment

Client Testimonials

"I have had a chance to think during the holidays about the effort and help you and your firm provided during the past three years to make this occur. It was a huge effort that was important to our company, the City of Bridgeport, and the new buyer...I am sure all of your clients mean it when they say thank you. We do too, and are genuinely grateful for your efforts."

- Walter C. Johnsen, Chairman and CEO, Acme United Corporation, Fairfield, CT

"I just wanted to thank you again for all your extraordinary efforts in selling 269 Woodmont Road in Milford. As you know, the transaction was anything but simple and if it wasn't for your hard work, dedication and going beyond the call of duty, the building would still be vacant...Please feel free to list Jacobson Family Investments as a reference, as it would be my pleasure to help your clients understand the high quality of services that you provide."

- J Robert Small, CFO, Jacobson family Investments, New York, NY

"Now that we are comfortably ensconced in our new offices, I want to take a moment to thank you for finding my new firm its home. The speed with which you accomplished this task was amazing...Even more importantly, we are very happy with both the financial terms and the physical setup. Not only does the space fit our needs, but everyone here feels it fits the distinctive personality of our firm. Thank you again for your help. It was a pleasure working with you."

- Robert Adelman, Partner, (Adelman, Hirsch & Newman, L.L.P) Bridgeport, CT

"I just wanted to thank you for the job you did for our company in its pursuit of a purchaser for our Stamford property...As you know, it was a very difficult task, due to the timing issue. Trying to maintain the sales contract on the Stamford property while pursuing property for our new location was a tedious and difficult task...We look forward to having you attend the ribbon cutting at our new facility. On behalf of Ottavio DiSanto and myself, thank you for all your hard work."

- Ronald Dunn, Vice President, DiSanto Technology, Stamford, CT

"Based on my own experience, I highly recommend the use of Vidal/Wettenstein for the purchase or sale of a building. I say this based on my own recent experience in selling an industrial building in South Norwalk...They got us a number of bids, with virtually all of them in the range that their comparable analysis had indicated...Recently, the building sold – again, within the expected price range. All through this process, they were engaged, communicative, positive and persistent...I have no reservation in recommending Vidal/Wettenstein, they do a great job and are as good as their word."

- Bart Geer, Managing Director, Putnam Investments, Boston, MA
